WATER MANAGEMENT AND CLIMATE SMART AGRICULTURE (3RD VOL.)

2015. Hardcover. Book Condition: New. 476 ABOUT THE AUTHOR:- Climate change has emerged as a major challenge to our agriculture, indeed to the management of our economy as a whole. The immediate problems that our farmers face relate to intra-seasonal variability of rainfall, extreme events and unseasonal rains. These aberrations cause heavy losses to our crops every year. There is therefore an urgent necessity for us to devise appropriate adaptation and mitigation strategies for gearing up our efforts to evolve...

Reviews

It is not difficult in go through easier to understand. It normally fails to price too much. I am very happy to inform you that this is actually the greatest ebook i actually have read through within my personal lifestyle and can be he best publication for ever.

-- **Miss Ebony Brakus IV**

This book is really gripping and fascinating. I really could comprehended almost everything using this published e book. I am just very easily can get a delight of reading a published publication.

-- **Kailey Pacocha**

This book is really gripping and fascinating. Of course, it is actually play, nonetheless an interesting and amazing literature. You will not feel monotony at anytime of the time (that's what catalogs are for about if you request me).
