Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from South African Botany Although there are several books dealing with South African Botany, there is none quite suitable for the upper classes of our secondary schools. This is an attempt to remedy that deficiency. The conditions in South Africa are so different from those prevailing in Europe that quite a different flora exists, and, consequently, European text books, excellent as they may be intrinsically, are far from satisfactory as class books for South African Schools. Although this book is suitable as a class book for those just beginning the study of Botany, the requirements of the syllabus for Botany in the Matriculation examination of the Cape University have been kept in mind, and the orders described are those prescribed in that syllabus. Also we have appended a number of questions taken from past Matriculation and Junior Certificate papers. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
